FRIDAY MORNING, DECEMBER 19, 1851 Bufus King, Wm. H. Watson & John. S. Fillmore, PROPRIETORS, 1 SDER THE NAME AND SHRY OF

RUFUS KING & CO. OFFICIAL PAPER OF THE CITY.

The Message and the Tariff Again. After the recent exposure of the proclivity ( dechood on the part of the Commercial in relaion to Ko-ath's speech, and of the unblushing arear in which that paper pensists in its mis tements, of course it is in vain to expect the Perance of plain truth in its columns, save by eddent. Hence we are not surprised to see gain asserting that the President has given the mestion of a protective Turiff the "go by," and but he does not complain of the present tariff, on principle," nor "urge the question of protecion as a distinct question;" but that he "mere recommends a nodification of it in such a man

er as to prevent frauds on the Revenue." The President, to avoid tedious repetition. fors back to his thessage of lost year, wherein he commended a change of the present ad valorem into pecific duties, so us to prevent fraud upo In-provention

He refers to the same document again, as have a recommended that "such a discrimination should be made in favor of the industrial pursuits door country, as should encourage home production."

He says that the advocates of low duties oreign merchandize, (i.e., of the present tariff) thought that policy "would tend to benefit the arming population by increasing the demand and aising the price of their products." He points to the fact of the decrease of exports

A breadstuffs from \$68,000,000 in 1-17, to \$21,-100,000 in 1851, and says:

The fore soing facts, seem to show incontestibly that no such result has followed the adoption of this policy. On the contrary, notwithstanding the repeal of the restrictive corn have in England, the foreign demand for the products of the American farmer has steadily declined, since the short crops and consequent famine in a portion of England, have been happily replaced by full crops and comparative abundance of food.

He states that constant frauds are the effects the present advalorem duties; and he makes the following becommendation, with the reason for it: This practical evasion of the present law, com-bined with the languishing condition of some of the great interests of the country, caused by over importations and consequent depressed prices, and with the failure in obtaining a foreign market for our increasing surplus of breathurits and pro-visions. Instinduced me again to recommend a modification of the existing tariff.

This ought to be sufficient for every reasonable person, and more particularly for a paper like the Commercial, which, professing and advocating Free Trade, yet says-"We have planted our selves upon a Tariff for Revenue, discriminating

a favor of American Industry." But, inasmuch as our ally, being new to the asiness, does not seem to understand it well; and inasmouch as President Fillmore explicitly refers Congress to his Message of last year for his pinions on the subject, let us see what he said in hat document. Here it is t

that document. Here it is:

I do not doubt the right or duty of Congress to encourage domestic industry, which is the great source of national, as well as individual wealth and prosperity? I look to the wisdom and patrictism of Congress for the adoption of a system which may place home labor, at lest, on a sore and permanent footing, and by due encouragement of manufactures, give a new and increased stimules to agriculture, and promote the development of our vast resources, and the extension of our commerce. Believing that to the attainment of these conds (as well as the necessary augmentation of the resources and the prevention of frances) a system of specific duties is best adapted, I strongly recummend to Congress the adoption of Dat system, pring the dates high coneph to afford substantial and sufficient reconsurgement to our own consumer stability.

sinbility. There it is. We do not expect my advocate of Tariff Asseriminating in favor of American la her, to dispute again our statement that the Pre ident shouls right on that question.

# Specie Imports and Exports.

Now, a is true that we have exported during Now, it is true that we have experted capital date current year a large amount of specie, but during the same time we have imported and produced a still greater amount, so that we are the real gainers in a not balance of over lifteen millions of com in a single year—and this under "The world of the large of the larg of com in a single year—and this British Free Trade\* Tariff of 1846.

True indeed it is that our experts of specie to Great Britain are frightful. As to the imports, they are from one port of our country to an other and not foreign imports, by any means, and bear no sort of comparison to the value of the property sent to the Pacific coast, whence they come,-British Pree Trade coully pockets the hard earn ings of the miners, and only lets go to stow them away in the Bank of England.

The Sentinel in its anxiety to ascribe smisthe Sentinet in its anxiety to ascertoe sinister motives to those U.S. Senators who received constructive mileage, togets that some of its brother whogs have made more than one grab at Unice Sam's coffers, and that too without the shadow of legal hights, while the U.S. Attorney General, a whog of undoubted character, has decided that constructive mileage was perfectly legal.—Water large Unifer. town like fister.

If it was "perfectly legal," why did Twentyfour Sonators refine to take it? Why did the "democratic" President of the Senate, who gave the conficate without which not a cent of this constructive mileage could have been drawn from the Treasury, himself refuse to share in the plunder which that certificate permitted? But what pulpable nonsense to talk about this extra allow $n_{abc}$  being "perfectly legal,"  $-\Lambda$  clearer case of obtaining money under false pretences was nover made out. And how futile the attempt to cover the wrong under the cloak of a "Whig Attorney beneral's opinion." What had that opinion to to with the question, at all? It could neither make, nor unmake the law. It could not open he doors of the Treasury. The opinions of Senaas were of much more consequence than that of the Attorney General, and Twenty-four of them, we are glad to say, put themselves on record eminst the wrong, and refused to participate in this "rebbery of the Exchequer."

22 The Commercial of yesterday, published he two following paragraphs in juxta-position with the intention of deceiving its readers into the belief that the Sentinel had expressed contradictory apinions on the subject matter:

-Sentend of Tuesday.

The Committee on Ways and Means, upon the vilode, is favorable to Pa, on the Tariff question.—Sent'nel of yesterday.

The first was an editorial paragraph and expressed the Scutinel's opinion of the Committee of Ways and Means. The second was a Telegraphic item, expressing somebody else's opinion on the same point. Of course the Commercial was aware of the cheat it was parting upon its readers, but thought it good enough for them.

The Wisconsin of yesterday gives utterne to the almost universal sentiments of our citi eas, in the following band-ome compliment to

the Firemen of our City;

UR GALLANT FIREMEN.-Words would fail to ten Gallant Firener.—Words would fail to the ribe the true beroism of our Firenen, in bat-thing the fire in such a night as the last, when ev-ery blast was almost like an icebolt; and yet, through the reorching heat on the one side, and a Si gian cold on the other—and smoke and ciu-der, and water freezing even as it fell in spray, did our Firenen battle the Fire King almost in did our Firemen battle the Fire King, almost in his magazine, for there was probably no partion of he city more combustible than where the fire by ce out last night. Nothing but their indomi-tal e efficiency and unqualling courage and exar-tio, a could have confined it where it was, and all this labor is done, be it remembered, without fee-or cward. All honor, say we, to the gallant Fire me t of Mylwauker.

Pricexex.—Our Fire Department is now so the roughly organized by the energies of the Chief Er gineer and his Assistants, sustained too, as they are, by the best blood of the city, that we be ture to say that no more efficient Companies can be found in the Union. In five minutes after the alarm, last, evening, the engines were on the go und, and pouring a stream on the fire. Every minute was worth a thousand dollars, where there we such probability that the fire would spread.

Reported for the Milwanker Sential. CONGRESS. Washington, Dec. 18

Horse met at the usual hour.

The bill establishing a branch mint of the U.S. in California was referred to the Connuittee of Ways and Means.
The Speaker laid before the House a commu-

mention from the Secretary of State, stating that nearly all of the \$10,000 appropriatedby Congress for the expense of Amin Bey, remained unexpen-

Mr Marshall, of Ky , introduced a bill for penchasing stock in the Louisville and Portland Careal, and the enlargement of the same to suit the wants of commerce. It was referred to the commatter on roads and bridge.

Mr. Chandler offered resolutions authorizing the Speaker to cause such alterations and arranges ments to be made in the internal of the Hall as may be deemed necessary for the comfort and health of the members. He said that he occupied a seat upon the very boundary of civilization, but he would not mind this did not the - blow upon his head.

Washington, Dec. 18 The Intelligences expresses surprise that no toasts were drank at the press dinner in N. V. to the President, and adds that Mr. Webster's lotter was received with hisses. It says the first movement be made towards the

release of Kossuth; but for the influence produced by his letter to the American Minister at Constantinople, Ko-suth would still have been a prisoner in Asia Minor.

The Republic says Kossuth is in the hands of a few officious individuals in New York, who are using him to advance their own interests. In fulfilment of that purpose they are laboring to place him in a position antagonistical to Con-gress; and the administration paper says Kosath has been led into alliances of the worst description, despite of his care.

The Intelligeners says that Mr. George H. Niles left here vestorday as beater of despatches to the American Minister at Machid. That paper infers that the despatches relate to the Lopez prisoner and Mr. Thrasher, It expresses ou fidence that the exertions of the covernment will produce their re-

Message was also received from the President in reply to the Resolution of hist session of Congress, concerning the navigation of the St. Lawtence. Also a communication from the Secretary of War, inclosing the annual estimate. The above Mr. Brodhead, of Penns, presented a petition

mancrously signed, praying for the restoration of flegging in the Navg. After come commendatory remaks from Com, Stockton, the petition was laid on the table. Mr. Hypter reported a bill giving compensation

to those persons who kept public depositories under the Treasury Act, and who had not received cotors ansation therefor. The bill was considered and ordered to a third reading.

Mr. Walker offered a resolution declaring it the

duty of the United States to interfere to prevent the violation of the Laws of Nations by the interrention of foreign powers in the domestic affair of other nations. Laid over.

Mr. Borland called up the bill granting a pen sum to the widow of Gen. Worth. Mr. Underwood opposed it and Messys. Seware

and Boristal advocated it. It was finally orderes to be engrossed. Yeas its, mays 5. We Foot's resolution, in reference to the com-

Sarrer from Busson Ayres.

Advices have been received from Buenes Ayres to the 14th of October; from Montevideo to the 5th. The megotiation which it was supposed would have put an end to the war have been abandoned, and the conflict was about to be renewed. The British Packet, the origin of Reas, represents that since the 3d of October, Oribe has frequently offered battle to Uquiza, which the latter has declined. Unformately, no reliance winnever can be placed upon the statement of the Packet, nor probably are the average of the Comercio, a Montevidean newspaper in the opposite interest, any more trustworthy. Supposing the truth to lie between the two, we inter that Urquiza has the advantage of Oribe, and that desertions from the ranks of the latter have been considerable. Urquiza, with a considerable force had reached the Vi, and a captain of a vessed arrived at Buenos Ayres reported that of a vessel arrived at Buenos Ayres reported that he had heard a heavy cannonade in the direction of Montevideo, from noon until evening on the 9th

of Cet.

A law was passed by the provincial legislature of Buenos Ayres, on the 8th of October, accepting the withdrawal of the resignation of Rosas, and its promulgation was the accession of some popular rejoicings at Buenos Ayres.

Since the above was written, we have received the following extract from a letter to a highly respectable firm in this city. We agree with the writer—" It is hard to know what to believe."

heve."

Buenos Ayres, Oct. 13th.

Oribe has sorrendered, and his officers have taken refuge on board the foreign vessels of war at the Bucce. Some of them were pursued by their own men and if caught they would have been tortured to death. Urquizz has accompibiled this without thenid of the Brazilians and without thring a shot. The loss of this army will prove a secree one to Roses. Only a few weeks ago he sent them a large quantity of arms, clothing and money, which will now full into the hands of Urquizz. It is said that the Brazilians will transport all Urquizz's infantry to Entre Rios in their stenners, and thus expedite matters greatly.

in their steinners, and thus expedie matters greatly.

There are a thousand reports in regard to the movements of the Brazilans and Urquiza and Rosas, and it is hard to know what to believe.—
But one thing is certain that Urquiza will come here, although it is probable that will in the first place, revolutionize some of the upper pravinces.—A. V. Com. Adv.

Desters in Fain Killer are condoned against huning or sellings spurious article of Pain Killer, manufactured by White & Co, of Buffalo, which is a worthless inhibition and the pamphiets a "asse forenas" which this appear by comparing them with the Genuine. The certificates are copied verbatim. The proprietor of the Grunine Perry David Pain Killer will prosecute any person, engaged in welling this spurious article, and is determined to protect him self-and the public from this "infamous fraud." Mony un-principled persons, to develve the public, and for the sake of gain, have applied the name Pain Killer or something similar to their own compounds and as Pain 18-drover, Pain Killing Compound, a real Pain Killer. &c. &c. all of which have been got up on the requestion of Ferry David Pain Killer. The public are causioned against these mity-tures.

Lovisville, May 20, 1849.

We have used John Buil's Strapp rills, and have known it to be used with entire satisfaction; and we have not ration in stating that we believe it to be a safe and related medical compound, and calculated to produce much good, and relieve much suffering; and it erefore would cheerfully and most carneedly recommend it to the afflicted.

(Signed) E. W. SKRON.

Testimony Like the following, renders superfluous all comments on the efficacy of Bull's Sarsaparilla. From Doctor L. P. Yandell, Profess v of Chemistry in the Louisville, Medical Folloge. Linuw looked over the life of ingressions composing Ichn Bull's Compound Extract of Sarsap cilia, and have no lastitation in arting that they form a safe compound, and one that promises well in chronic disease, to which it is applicable.
